D2P® System Requirements

This document describes the recommended minimal hardware specifications to run D2P software and supported platform, VR included.

Minimum software requirements

- Windows 10, 64bit OS only
- DirectX 11
- PDF Viewer

Minimum hardware requirements

- Intel® Core i7 (Intel processors only) *
- 16GB RAM DDR3 800 MHZ
- ≥500GB free disk space for data storage
- Graphic card:
  - NVIDIA GTX 1060 (GTX 1080 VR ready, for VR support) **
  - Support DirectX 11
  - Minimum 3GB memory (8GB for VR support)
- Screen resolution: 1920 x 1080

Recommended hardware requirements

Higher specifications are recommended for faster processing and better user experience:

- Intel® Core i7 (Intel processors only) *
- 32GB RAM, or higher
- SSD ≥256GB for the software installation
- ≥500GB free disk space for data storage
- Graphic card:
  - NVIDIA GTX 1080 or higher **
  - Support DirectX 11
  - Minimum 8GB memory
- Screen resolution 1920x1080

Compatible VR headsets

The following VR headsets are currently supported:

Manufacturer	Model name
HTC	VIVE, VIVE Pro, VIVE Pro 2, VIVE Cosmos Elite
Oculus	Rift, Rift S

* AMD processors are not supported
** AMD graphic cards are not supported

OQTON

Oqton is a division of 3D Systems, Inc.   3D Systems is the legal manufacturer of D2P
